PROFILE

I am experienced in developing applications for both web and mobile, merging functionality with elegant design. Skilled in interpreting design ideas, I utilize various tools to craft visually captivating interfaces. I am eager to apply my skills and continue learning through internship while adapting to different roles and providing assistance. I am enthusiastic about contributing to the team and expanding my knowledge.

ACADEMIC EXPERIENCE

CHED RO XI - HEMIS   2023 - 2024
Team Leader

- Leading, managing, and monitoring the team for the capstone research project with the Commission on Higher Education Regional Office 11 as the client.
- Close collaboration with both the team members and the representatives from CHED in the creation of a Higher Education Management Information System.
- Taking part in the development of the UI/UX design, front end, and back end of the project.

Joan Beach Resort - Booking and   2022
